Avast® Business Encrypted Email

Encrypting your customers' email made simple

Identity theft and security breaches can damage your customers' business in an instant, but now you can deliver comprehensive email protection with Avast Business Encrypted Email simply, effectively and profitably. Avast Business Encrypted Email is a secure, cloud solution that allows your customers to encrypt all outbound emails based on their content, the sender or recipient. Its unique inbox-to-inbox communication requires no sender/recipient authentication and eliminates the need for customers to build and maintain their own encryption keys.

Complete peace of mind

Using the cloud-based secure network that is trusted by global financial institutions, all outbound emails are encrypted against bespoke user-defined criteria that are automatically applied across all PC-based, BlackBerry or smartphone communications.

Make more money

Use Avast Business Encrypted Email service to attract new customers and tap into the revenue potential of this vital service. As an Avast Business Partner you also enjoy exclusive pricing and additional discount opportunities.

Save time and costs

By reducing the complications and disruption security breaches can cause your customers you also remove the potential costs and disruption of becoming involved in disaster-recovery activities. Plus, because like all Avast Business CloudCare services, Avast Business Encrypted Email can be installed easily and updated automatically, saving you time and costs.

Build your reputation

Reinforces your reputation as a problem solver. Not only can you offer customers secure, cloud-based and cost-effective email encryption services, your customers will no longer need to invest in additional hardware, software and staff training to install and implement a non-automated, alternative encryption solution.

FEATURES

POLICY-BASED EMAIL ENCRYPTION

Encrypt all company emails centrally based on content, sender and recipient for regulatory compliance. Emails can also be set to automatically encrypt if triggered by keywords in the subject line, if marked as confidential or addressed to specific email domains or email addresses.

TRANSPARENT EMAIL ENCRYPTION

Public encryption keys are automatically retrieved and distributed enabling transparent email encryption between all encryption customers.

ADDITIONAL ENCRYPTION CONTROLS

Emails that are sent un-encrypted can be automatically encrypted, re-routed or blocked if they do not comply with the company's encryption policy. This automatically reduces the risk of genuine user error as well as malicious user intent.

UNIQUE MULTI-DEVICE COMPATIBILITY

As well as secure PC-to-PC encryption, Avast Business Encrypted Email is also uniquely compatible with all email communication sent via and to BlackBerry and other smartphone devices.

SECURE MESSAGE PORTAL

Avast Business Encrypted Email is cloud-based and maintained in SysTrust-certified and SAS-70 type II data centers for additional peace of mind.

BRANDING

All customer-facing elements of Message Center are fully brandable.

CO-ADMINISTRATION

Use the Message Center to set up and manage new customers.

MAXIMUM CONFIGURABILITY

Enjoy the highest level of flexibility to be able to respond to customers' needs.

SECURE AND SIMPLE

Avast Business Encrypted Email reduces the need for sender/recipient authentication by automatically encrypting all inbox-to-inbox communication through a cloud-based, secure network to more easily comply with industry regulations and protect sensitive information.

CLOUDCARE ARCHITECTURE

- SSL 2048-bit encryption in transit
- Private Cloud, fully redundant data centers
- Multiple-layer firewalls with SPI
- Secure user password enforcement
- Compatible with existing firewalls
- Compatible across all browsers

ABOUT AVAST BUSINESS

The Avast Business solutions secure, simplify and optimize the IT experience for small and medium-sized businesses worldwide.
